Active U.S. Secret Security Clearance

SUMMARY

Secret-cleared CS senior combining HMI/SCADA controls engineering, full-stack development, and hands-on binary exploitation coursework — targeting defense and embedded systems roles.

EDUCATION

Louisiana State UniversityBaton Rouge, LA

B.S., Computer Science | GPA: 3.6 / 4.0 | Dean's ListExpected: Dec 2026

- Coursework: Data Structures & Algorithms, Operating Systems, Database Systems, Digital Forensics, Binary Exploitation & Vulnerability Research

CERTIFICATIONS

- CompTIA Security+ — In Progress (Target: Summer 2026) | DoD 8570 IAT Level II

WORK EXPERIENCE

Bascom Hunter Technologies, Inc.Baton Rouge, LA

Software InternMay 2026 – Aug 2026

Advanced Systems Integration Consultants (ASIC, Inc.)Baton Rouge, LA

Controls Engineering Intern — HMI & Industrial AutomationJan 2026 – May 2026

- Designed and deployed HMI operator screens in EcoStruxure Operator Terminal Expert, integrating SCADA and live PLC data for real-time operator monitoring
- Developed PLC ladder logic and I/O mapping in EcoStruxure Control Expert; performed I/O wiring from schematics, correctly terminating discrete and analog signals to support control panel commissioning

Air Force National GuardBelle Chasse, LA

Staff Sergeant — Financial Management & ComptrollerJun 2021 – Present

- Managed financial systems supporting \$2M+ in operational funds; processed 500+ transactions at 98% accuracy
- Led a team of 5 personnel to certify transactions and onboard incoming financial staff

555 InternationalChicago, IL

IT Support Specialist (Internship)May 2023 – Aug 2023

- Imaged and deployed 200+ devices; diagnosed technical issues with 95%+ first-contact resolution rate

PROJECTS

FitCheck — Fashion Social Commerce Appgithub.com/keezyttg/FitCheck

- Cross-platform fashion social app (React Native + Expo + TypeScript) with Firebase backend; full CRUD, star-rating, closet management, and real-time Firestore reads
- Selected for LSU Tiger Tank; pitched as a shoppable affiliate commerce startup to a panel of investors (\$57K implied valuation)

Fortis — Gamified Self-Improvement PWAgithub.com/keezyttg/self_help

- Solo-built and Vercel-deployed PWA featuring XP/leveling (10 ranks), 8-habit tracker, 90-day heatmap, streak freeze, workout split tracker, and daily journaling

Car Offer Analyzergithub.com/keezyttg/Car-Offer-Analyzer

- PWA that evaluates used car offers via depreciation modeling and OpenAI-powered fairness scoring; built with Next.js, React, and TailwindCSS

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, Python, C, Dart, HTML/CSS

Frameworks & Tools: React, Next.js, Flutter, Firebase, TailwindCSS, Git, Linux, GDB, pwntools, Wireshark, Power BI, Schneider Electric EcoStruxure (Control Expert, Operator Terminal Expert), React Native, Expo
